

AIAIO – Raising AI-Wariness – Whitepaper

Abstract

AIAIO (\$AIAIO) is a Solana-based meme token born from humanity’s collective reaction to artificial intelligence taking over everything. It’s the sound we make when AI gets smarter, funnier, and richer than us — “eye-eye-oh” in Tamil means “oh, no!”.

1. Introduction

AI is evolving faster than anyone imagined. One day you’re using ChatGPT, the next day it’s your boss. The race for AI dominance is allowing for unforeseeable consequences, bypassing normal procedures and safeguards with the sole aim of getting there first.

AIAIO represents our AI-wariness— tokenized. It represents every “Oh no!” we’ve screamed while watching AI demos, layoffs, and humanoid robots do backflips. It’s a coin that doesn’t promise to change the world — just to help humanity wake up to what is happening.

2. The Manifesto

AIAIO isn’t another tech coin with a 50-page whitepaper and no soul. It’s a movement powered by our fears of the future of humanity vs AI.

Mission: Raise awareness about AI and its associated dangers

Vision: Build a solid community of thinkers & doers that want to come together

3. Tokenomics

Token Name: **AIAIO**

AIAIO – Raising AI-Wariness – Whitepaper

Distribution:

- Liquidity: 75% (Seed Raydium pool & trading depth)
- Airdrop: 25% (Reward early community & promotion)

All allocations are verifiable via transparent wallet addresses on Solscan.

Liquidity is locked till Nov 2026 to ensure the safety and security of all holders. The lock is represented as an NFT generated by the Raydium CMM pool.

4. Technology

AIAIO is built using the Solana SPL token standard, leveraging:

- Ultra-fast transaction speed (<1 sec)
- Low fees (fractions of a cent)
- Integration-ready with Raydium, Jupiter, and SolTools
- Open metadata on-chain (logo + description via github)

The mint authority has been permanently disabled, ensuring a fixed supply forever.

5. Roadmap

Phase 1: Foundation

- ✓ Token launch on Solana
- ✓ Liquidity Pool created on Raydium
- ✓ Mint authority frozen & liquidity locked for transparency
- ✓ Website Launch: <https://aiaio.co.in>
- 📺 Community Airdrop to early supporters
- 🚀 Organic awareness across X and Telegram

Phase 2: Growth & Awareness

- ♦ Expand the AIAIO community onboard thinkers, creators, and AI enthusiasts
- ♦ Launch AI discussion spaces (Twitter Spaces, Telegram voice chats)
- ♦ Begin marketing collaborations and influencer partnerships
- ♦ Roll out educational threads and posts around AI and its impact
- ♦ Introduce community-driven polls to shape AIAIO direction

Phase 3: Utility & Development

- ⚙️ Launch AIAIO Forum a decentralized hub for AI discussions
- ⚙️ Launch AIAIO Identity & Stake Verification dApp to prove everyone is human
- 💡 Begin DAO structure planning for community governance
- 🔗 Collaborate with AI and blockchain projects for cross development

Phase 4: Expansion & Sustainability

- 🏛️ Launch AIAIO DAO and voting mechanisms
- 💼 Form strategic partnerships in AI and tech sectors
- 📈 Seek CEX listings and further liquidity expansion
- 🔥 Continue to grow AIAIO as the voice of AI awareness on chain

6. Security & Transparency

To ensure fair launch and trust:

- Mint authority: Revoked after mint
- Liquidity: Locked for 1 year
- Team wallets: None (unless purchased at market value)
- Source: Open metadata and public audit trail

7. Community & Participation

AIAIO is community driven – every single one of you help make this a success (or failure). Let's raise AI-wariness together!
